NEWS RELEASE June 4, 2004

PotStickers™ KEEP YOUR COUNTER TOPS SAFE....AND THEY DON'T SLIP!

When is a product better? When it does TWO things well!

Slip a PotSticker™ hot pad under your sizzling frying pan, pot of boiling water or even something cold and not only will you protect your table, desk or counter-top, but you'll also be adding a super sticky non-slip pad under your pan.

The 100% silicone pad will keep your table safe with items up to 675° (Fahrenheit) and the solid bubbles on the surface will keep the hot item ventilated.

Rolling seas? Bumps in the road? Accidental knocks of your hand or elbow? No worries: the PotSticker will keep whatever is on top of it from sliding off. Use a PotSticker whenever you want a non-slip surface under your plates, bowls, serving platters or anything else. They're even great for toasters, TVs, computers or anything else that you want to remain in place while your boat or RV is moving.

PotStickers are easy to clean (they're even dishwasher safe), have a hole for hanging, and will last you a lifetime. They're great around the home too. Since they're flexible, they'll smooth out an uneven surface for your hot dishes.

But wait: there's more! They also make great garlic peelers and jar openers!

PotStickers come in 2 sizes (small: 7" x 7" and large: 11" x 11") and 3 colors (bright red, royal blue, snow white). The small is \$9.95 and the large is \$14.95. They make a great gift!
