NEWS RELEASE

June 4, 2004 Contact: Bill Irving

HANDLE HOLSTER™ IS THE BEST WAY TO CARRY OR STORE A WINCH HANDLE

There never seems to be a winch handle exactly where you need it on a sailboat. Now that problem is solved: the SHOCKLES® HandleHolster™ attaches to a mast, handrail, winch—or even YOU—allowing instant access to your winch handles.

The tough, sun resistant, polyester mesh holster—which features SHOCKLES® exclusive Stay-Open™ top to insure your handle goes in and comes out without hanging up—is sewn to a 48" long belt with a quick-release buckle. When wet it drains instantly and dries in seconds.

Wrap a HandleHolster™ around your mast right at your winch where you always need it. Loop the belt around a winch to keep your handle handy. Or wear it around your waist so you always have a winch handle with you no matter where you are on the boat. With strong, inexpensive floating handles these days, it just makes sense to have each crew member have a winch handle right with them.

You can also use the HandleHolster™ for holding tools, VHF radios, repair parts, BBQ tongs, cleaning supplies, or even a tall, cold beverage.

The HandleHolster™ comes in two colors: gray with a dark blue belt or royal blue with a silver/gray belt. Suggested retail is \$16.95.
