## NEW PRODUCT INFORMATION

### KEEP YOUR PET SAFE WITHOUT STRESS

The PetKeeper™ is undoubtedly the most versatile pet tether ever invented. Clip it to any size cat or dog and clip the other end quickly and securely to just about anything. Best of all, when you are walking Rover and he decides to chase the neighborhood squirrel he won't yank the leash out of your hand. The PetKeeper makes a great training lead.

Clip the PetKeeper to your belt for "hands-free" walking or running. Or clip it around your bicycle seatpost—the gentle stretch will keep your dog close without yanking you off balance.

The PetKeeper works great on boats too. Unlike a piece of rope or webbing that can easily get tangled around your boat, your pet or you, especially in rough water situations that will injure your pet if he/she is suddenly yanked, the PetKeeper will stretch to 70% of its coiled length. The shock-absorbing PetKeeper will gently return to its original length without a sharp jerk. This is absolutely the best way to keep your pet safe and close at hand on a boat or on land.

The marine-grade anodized aluminum carabiners on either end are rated to 300# breaking strength and the 36" long tubular nylon sheath will easily hold a dog up to 90#. The PetKeeper™ comes in red, blue, black or silver and will surely be the best \$24.95 you ever spent for your pet. [Disclaimer: not for use on birds, fish, lizards, or elephants.....]
